AN INTERNSHIP REPORT

ON

“QUOARA FOR ENGINEERS”

Bachelor of Engineering

In

Computer Science and Engineering

Submitted by:

AMOGH.S.BHARADWAJ (1DT19CS013)

VISHWAJIT.H (1DT19CS051)

HARSH.V.CHALLA(1DT19CS054)

DAYANANADA SAGAR ACADEMY OF TECHNOLOGY AND MANAGEMENT

2022

ABOUT THE COMPANY

We are a digital service provider that aims to provide software, designing and marketing solutions to individuals and businesses, we believe that service and quality is the key to success

We provide all kinds of technological and designing solutions from Billing Software to Web Designs or any custom demand that you may have. Experience the service like none other!

Some of our services include:

Development - We develop responsive, functional and super-fast websites.

We keep User Experience in mind while creating websites. A website should load quickly and should be accessible even on a small view-port and slow internet connection.

Mobile Application - We offer a wide range of professional Android, iOS & Hybrid app development services for our global clients, from a start up to a large enterprise.

Design - We offer professional Graphic design, Brochure design & Logo design. We are experts in crafting visual content to convey the right message to the customers.

Consultancy - We are here to provide you with expert advice on your design and development requirement.

Videos - We create a polished professional video that impresses your audience.

About my TEAM	33
---------------------	----

OVERVIEW OF THE PROJECT

Project Name: Quora for Engineering Students

Team Members:

1. AMOGH.S.BHARADWAJ (1DT19CS013)
2. VISHWAJIT.H (1DT19CS051)
3. HARSH.V.CHALLA (1DT19CS054)

This project is based on Web Development And its Applications. The main objective of this project is to learn the implementation of HTML, CSS and JavaScript. The basic webpage of this project is created using HTML and styling of the webpage is done using CSS.

ABOUT QES

QES is a question-and-answer website for Engineering students. We tend to create a flagship site similar to the Stack Overflow Site of the Stack Exchange Network, created in 2008 by Jeff Atwood and Joel Spolsky. QES features questions and answers on a wide range of topics in Engineering. Our notion of a better-connected engineering community to tackle all kinds of academic and non Academic questions and problems would make the engineering community better. Establishing a community-based platform like this would help bypass the location barrier for Engineering students.

TOOLS USED

HARDWARE REQUIREMENTS

- Processor - Intel 486/Pentium processor or better
- Processor Speed - 500 MHz or above
- Hard Disk - 20GB(approx.)
- RAM - 64MB or above
- Storage Space - Approx. 2MB

SOFTWARE REQUIRMENTS

- IDE: VISUAL STUDIO CODE
- LANGUAGES USED:
 1. HTML
 2. JS
 3. CSS
 4. PYTHON
 5. DJANGO
- DATABASE: SQLITE

IMPLEMENTATION

The image is a composite of two screenshots from a web browser, showing a Q&A platform interface. The top screenshot displays the 'Answer' form for a question titled 'What Is An Engine?'. On the left, there is a large orange box with the text 'Answer a question here!' and '...your contribution really matters to us tech guys!!'. On the right, the form includes a 'Name*' field with the value 'Amogh', a 'Content*' text area with a rich text editor, and a 'Post Answer' button. The text in the content area reads: 'An engine is a machine designed to convert one or more forms of energy into mechanical energy. Mechanical heat engines convert heat into work via various thermodynamic processes. Engines – such as the ones used to run vehicles – can run on a variety of different fuels, most notably gasoline and diesel in the case of cars. Different Types Of Engines Probably the most intuitive way to differentiate between them is the type of energy each engine uses for power. Heat Engines

- Internal combustion engines (IC engines)
- External combustion engines (EC engines)
- Air-breathing combustion engines

'. The bottom screenshot shows the 'Question' page for 'What Is An Engine?'. It includes the question title, a section for 'Different Types Of Engines also?', a '11 Likes' indicator, and the answer provided by 'Amogh' on '26 April, 2022'. The answer text is identical to the one in the top screenshot. At the bottom of the question page, there is an 'Answer Question' button and a small toolbar with icons for editing and deleting.

9. SEARCHING FOR QUESTIONS

The screenshot shows a web browser window with the URL `127.0.0.1:8000/questions/?search-area=what+is`. The page features a search bar with the text "what is" and a "Logout" button. Below the search bar, there is a section titled "Top Questions" with an "Ask Question" button. Three questions are listed:

- What Is An Engine?**
Different Types Of Engines also?
Asked By: [chandrokanth](#) | On: 26 April, 2022
Tags
- what is DBMS**
full form?
Asked By: [vishwajit](#) | On: 26 April, 2022
Tags
- What is cryptography?**
What is cryptography?
Asked By: [harsh](#) | On: 25 April, 2022
Tags

The footer of the page reads: "site design / logo QES 2022 © by Harsh,Amogh,Vishwajit". The Windows taskbar at the bottom shows the date as 4/26/2022 and the time as 11:56 PM.

10. LOGGING OUT

The screenshot shows the same web browser window with the URL `127.0.0.1:8000/logout/`. The page displays a large yellow banner with the text "You have been logged out!!" and a blue "LOGIN" button. The search bar now includes a "Log in" button and a "Sign up" button. The footer and Windows taskbar are identical to the previous screenshot, with the time now at 11:57 PM.

11. DATABASE OF USERS

The screenshot shows the SQL Online IDE interface. The left sidebar lists the database 'db.sqlite3' and its tables. The main query editor shows a query: `SELECT * FROM auth_user`. The results table displays user information.

14. DATABASE OF LIKES

The screenshot shows the SQL Online IDE interface. The query executed is `SELECT * FROM stackbase_question_likes`. The result set contains 7 rows of data. The table structure is as follows:

id	question_id	user_id
4	6	1
5	6	14
6	6	13
8	8	15
9	9	16
10	10	16
11	11	16

About my TEAM

AMOGH.S.BHARADWAJ (1DT19CS013) - **Leader** of the team worked extensively in Python,Django Functions And front end designing ,also coordinating all the tasks between all the components of the project

HARSH.V.CHALLA(1DT19CS054)- Contributed in accomplishment of the project by extensively working partially in front end development of the website with Html Css and in Python Django functions

VISHWAJIT.H (1DT19CS051) - Worked in smooth connectivity of all the parts of the project and partially helped in front and backend development
